## Company Overview

**FIGHTING COVID-19 AND SUPPLYING  
ESSENTIAL PRODUCTS WHEREVER NEEDED**

**LiveLife Corp** brings together a global network of professionals focusing our energy on the fight against **COVID-19**. A reliable cornerstone to countries, cities and regions in securing their national supplies.

Established in 2019 as a full service logistics, supply, quality control and delivery company for **COVID-19** supplies.

With offices in Canada, the UK, China, the Middle East and **a global supply** chain that can deliver anywhere supplies are needed.

Our QAQC division conducts **quality control checks** on our contracted factories and the products we supply.

## Medical Face Mask:

### KN95 FACE MASK: KN95FM

KN95 Medical Face Mask is a high- quality anti-pollution mask made with ultra soft material and protection levels of K95 and N95. The mask protects from fine dust, particles and other pollutants. One size fits all adults with an adjustable nose clip to ensure a secure fit and allowing more room for eyewear.

- Executive Standard: GB2626-2006
- Protection Grade: KN95 GRADE
- Filtration Effect:  $\geq 95\%$  Expiratory
- Resistance:  $\leq 250\text{Pa}$  Inspiratory
- Resistance:  $\leq 350\text{Pa}$
- Flat Fold Design & Individually Packaged
- Fluid Resistant & Disposable  
1000pcs/Box

### DISPOSABLE (3PLY) FACE MASK: PROTECTIVE MASKS

- 3 Layers
- Leak Proof Non-Woven Fabric.
- High Density Filter Layer
- Direct Contact Skin Layer 3-ply pleated ear loop mask provides excellent filtration and protection.
- This mask is designed to filter out most airborne germs, particulates and pollen.
- Expandable design folds to fit most faces and accommodates facial hair.
- Breathable – 3 Layer Filter

### TECHNOLOGY

- These protective masks are made from the finest materials.
- Their non-woven fabrics act as filters and bacteria barriers.
- They are gentle to the skin, non-toxic and non-irritating.

## Hand Sanitizer:

### HAND SANITIZER:

- Our Hand Sanitizer is great for quickly cleaning and disinfecting your hands without soap and water.
- Available in a variety of sizes.
- Supplied in a range of formulations (70% - 80% alcohol content).
- Scent customization.
- Formulated for sensitive skin.
- Acts quickly and provides instant protection against bacteria.
- Quick absorption, does not require rinsing or paper towels.
- Can be used with lotion and disposable gloves.
- Doesn't dry out your hands.

## Patient Gown & Protective Suit

### LONG SLEEVE PATIENT GOWN: PGLSNWB (SM, MD, LG, XL)

The Disposable Long Sleeve Patient Gowns are an ideal alternative to expensive traditional cotton laboratory coats. They are durable, hard wearing and can be worn as multiple use laboratory coats or as disposable visitor laboratory coats. Made of spunbonded polypropylene, PP coated PE or CPE, SPES and SMS.

### DISPOSABLE PROTECTIVE MEDICAL SUIT: DPMS (SM, MD, LG, XL)

The Disposable Protective Medical suit is made of PP spunbond non-woven fabric laminated with PE film. The raw material is high in strength, soft in touch, skin-friendly, comfortable to wear, and strong in antistatic performance. It comes with a two-piece hooded design, seam sealed tape workmanship, elastic sleeve cuff, closed placket design and an elastic bottom hem closure.

# Protective Medical Goggles & Face Shield

## PROTECTIVE MEDICAL GOGGLES:

The Protective Medical Goggles keep your eyes safe from a multitude of pollutants such as droplets, aerosols, liquids and dust.

- Fits over most prescription eyewear.
- Adjustable headband.
- PVC wrap around frame provides safety from droplets, aerosols, liquids and dust.
- Anti-fog performance.
- Meets the ANSI Z87.1, CSA Z94.3, EN166 and AS/NZS 1337 standards.

## PROTECTIVE FACE SHIELD:

Our protective face shield effectively isolates pollutants such as droplets, aerosols, liquids and dust. It is light weight and comfortable to wear with a foam forehead cushion.

- Effectively isolates pollutants.
- Special coating prevents fogging.
- Clear vision.
- Light and comfortable.
- Light transmittance > 90%.
- Disposable.

# Digital Thermometer

## INFRARED DIGITAL FOREHEAD THERMOMETER SPECIFICATIONS:

- **Material:** ABS Plastic
- **Display Resolution:** 0.1°C(0.1°F)
- **Body Temperature Measurement:** 32.0-42.9°C / 90-109.4°F
- **Object Temperature Measurement:** 0-100°C / 32-140°F
- **Accuracy:** (+/-)0.2°C
- **Measurement Distance:** 5 to 15cm (within 5cm is the best)
- **Auto-shutdown Time:** About 7s
- **Power Supply:** 2 \* 1.5V AA Batteries(NOT Included)
- **Operating Temperature:** 10-40°C / 50-104°F
- **Storage Temperature:** 0-50°C / 32-122°F
- **Relative Humidity:** ≤85%
- **Item Size:** 105 \* 55 \* 160mm (L \* W \* H)
- **Item Weight:** 115g / 3.9oz
- **Package Size:** 20 \* 11 \* 4.8cm (L \* W \* H)
- **Package Weight:** 201-220g / 7.12-7.74oz
- **Package Includes:** 1 x MedicBooth™ Thermometer, 1 x Users Manual

BeMotion<sup>INC</sup>

# Non-contact Human

## Temperature Screening System

- **300+ / Monitor human flow every minute**

Compared with an ordinary handheld thermometer, the detection efficiency is high, detecting at least **300** people / min.

- **0.5s / Auto Alarm**

When someone with an abnormal body temperature passes by, the device will automatically set off an alarm in **0.5s**.

- **5M / Temperature measuring distance**

The temperature measurement distance is between **1m~5m**, which can effectively reduce the contact with the tested person helping to avoid transmission.

- **> 99.9% / Data accuracy**

The forehead temperature can be measured accurately using artificial intelligence (**Ai**) face-detection algorithm, which has the capacity to recognize people even if they're wearing a mask or hat.

- **High precision real-time alarm**

Real-time monitoring of body temperature is based upon **face recognition**. Wearing a hat or glasses does not affect accurate identification.
